

Factory Customized Spring Steel Shim Thin Flat Washers SS304 Stainless Steel Shim Ring Thin Shim Washer

Our Product Introduction

for more products please visit us on mimmetalparts.com

Basic Information

- Place of Origin: China
- Brand Name: MDM
- Certification: ISO9001:2015
- Model Number: SHIM001
- Minimum Order Quantity: 1000 pcs
- Price: \$0.02~\$0.25/piece
- Packaging Details: PE bag+carton+pallet
- Delivery Time: 7-30 work days
- Payment Terms: T/T, Western Union, Paypal, Alipay
- Supply Ability: 50000 pcs per month

Product Specification

- Chemical Resistance: Excellent
- Shape: Flat
- Durability: Long-lasting
- Color: Silver
- Size: Customized
- Application: Sealing
- Customization: Available
- Corrosion Resistance: High
- Temperature Range: Up To 500°F
- Pressure Range: Up To 1000 PSI
- Material: Stainless Steel, Brass, Aluminum Etc.
- Thickness: 0.02mm-3.00mm

Product Description

Factory Customized Spring Steel Shim Thin Flat Washers SS304 Stainless Steel Shim Ring Thin Shim Washer

Product Description

Material	Stainless steel, Brass, Copper, Steel, Aluminum, Plastic etc.
Style	Flat, Internal Tooth, External Tooth, countersunk
Surface Finish	Black, ZINC plating, Plain
Application	Heavy Industry, Mining, Water Treatment, General Industry, Automotive Industry

More similar shims and washers can be customized

Production Workshop

Factory Tour

CNC engraving machine/CNC lathe

8 pcs four axis and five axis CNC finishing machines, 20 precision CNC lathes, specializing in the processing of precision hardware parts of the turning, cutting, milling, drilling and so on.

Japan imported (Star) turning and milling in line with the go-core machine, automatic CNC lathes 4 sets, set high precision, fast efficiency, quality assurance perfect embodiment, professional processing of various precision shaft and hardware

Go-core machine

Automatic lathe

Source factory, 16 sets of automatic lathes, specialized in processing all kinds of small hardware pieces, such as iron, aluminum, copper, stainless steel, etc. All can be processed by drawing or sample

sintering furnace

injection machine

debinding machine

CNC center

milling machine

CNC machining

1000 ton die-casting machine

mold workshop

post processing workshop

Package details

Packed in foam envelope
Protect the products from
scratch and rust

Packed in foam blister
Protect the products from
Damage and rust

Outer package, with carton boxes with
0.6mm thick to keep the parts safe and
complete to arrive at the destination

FAQ

Q: What materials can you process?

A: Steel 4340, 4140, Stainless steel 304, 316, 420, Aluminum 6061, 7075, Brass, Copper, POM, Titanium etc.

Q: Can you protective my business, will my drawing be safe after you get it?

A: Yes, we can sign the NDA before you send the drawing.

Q: What type of drawings can you read?

A: We can read STEP, IGS, CAD, PDF, Solid works, etc.

Q: Do you provide samples?

A: Yes, for the molding parts we can supply free samples. For CNC parts we need to charge for samples and refund when place the mass production order.

Q: How soon can I get your quotation?

A: Normally 12 hours to 24 hours.

Q: What's the lead time?

A: 7-30 working days, depends on the order quantity.

Q: Can you do surface treatment for the products?

A: Yes. We can do heat treatment for iron and steel parts, hardness is 30-60 HRC according to the requirements. And black oxide, electric plating.

PVD coating for stainless steel with black, silver, blue, rose gold and many colors.

For aluminum parts, we can do anodize for different colors.
