PRODUCT SPECIFICATIONS

item	value
Production process	Metal injection molding, powder metallurgy
Material	MIM4650,MIM FN08 304L, 316L, 17-4PH, 420SS
Application fileds	Lock, auto cars, Electric tools, cutting tools, household appliances, consumer electronic products
Surface treatment	QPQ, Black oxide, PVD coating, electric plating etc.
Heat treatment method	Quenching, Tempering, Annealing
Quanlity check	Random check during production, 100% inspcetion before shipment
Sintering method	Solid sintering, Liquid phase sintering, Pressure sintering
Sintering furnace	Vacuum sintering furnace, mesh belt furnace
Payment terms	T/T at sight, Paypal, Western Union,etc.
Lead time	20-40 days
Supply capability	50000 pcs per monthly

COMPANY PROFILE

Dongguan Minda Metal Tchecnology Co.,Ltd. Was founded in 2015. We specialize in producing MIM parts, PM part, CNC machining parts and Aluminum alloy, Magnesium alloy and Zinc alloy die casting parts. At the same time we also undertake the corresponding product mold design and development and production.

Our professional sales staff will communicate and understand the needs of customers in a timely manner and convey to the technical staff, and the general manager will quickly give the quotation scheme suitable for the product.

In the production process, we will check the quality of products at any time. The product will be fully inspected before shipment to ensure that none of the defective products reach the customer's hands.

You have the right needs and we have the right expertise, for hardware accessories solutions please feel free to contact us, we are there for you 7x24h.

Our Advantages

Packing and Shipping

Packed in foam envelope Protect the products from scratch and rust

Packed in foam blister Protect the products from Damage and rust

Outer package, with carton boxes with 0.6mm thick to keep the parts safe and complete to arrive at the destination

Q1.Are you a maunfacture or a trading company?

A: .For die-casting process we use Aluminum alloy, Magnesium alloy and Zinc alloy. For MIM/PM process the materials are Iron base, stainless steel powder. For CNC machining parts the materials are Steel 4140, 4340, #45 steel, Chroma steel, 420 SS, 304SS, 316SS, Brass, Titanium etc.
Q4.What is the payment term? A: T/T, L/C, D/P, D/A acceptable, just let us know which is convenient for you.

No.249, Zhen'an Road East, Chang'an Twon, Dongguan City, China. 523859
