

## Galvanized Flat Square Washer with 2 Years Warranty and 100% QC Inspection for High Safety Plumbing Systems

Our Product Introduction

for more products please visit us on [mimmetalparts.com](http://mimmetalparts.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MDM
- Minimum Order Quantity: 1000
- Price: \$0.02-0.04

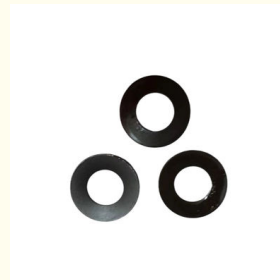

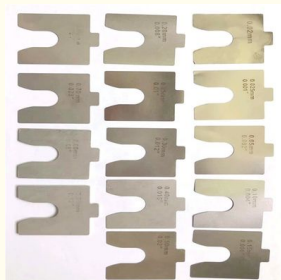

### Product Specification

- Material: Aluminum 6061/7075, Stainless Steel 304/316/420/303, Brass, Copper, Titanium, Carbon Steel, Mild Steel, #45 Steel, 4140, 4340, Kovar Alloy
- Surface Treatment: Zinc Plating, Chrome Plating, Nickel Plating, PVD Coating, Anodizing, Polishing, Sand Blasting
- Processing Method: CNC Turning/milling/machining/drilling/laser Cutting/stamping/wire Cutting
- Surface Roughness: Ra 0.8-3.2
- Weight: 0.01 Kg
- Tolerance: 0.02mm
- Plating: Zinc
- Technics: CNC Machining Lathing
- Type: Laser Cutting
- Material Alloy: Aluminum Alloy
- Surface Anodizing: Anodizing

## Product Description

### High Quality Galvanized Flat Square Washer Stainless Steel Shim for Plumbing Systems

Premium stainless steel shim washers designed for durability and precision in plumbing applications.

Material	Aluminum 6061/7075, stainless steel 304/316/420/303, Brass, Copper, Titanium, Carbon steel, Mild steel, #45 steel, 4140, 4340, Kovar alloy
Surface Treatment	Original or customized options including zinc plating, chrome plating, nickel plating, PVD coating, anodizing, polishing, sand blasting
Manufacturing Technics	CNC Turning/milling/machining/drilling/laser cutting/stamping/wire cutting
Sample Policy	Sample costs refundable upon mass production confirmation
Surface Roughness	Ra 0.8-3.2
Color Options	PVD black/silver/yellow/golden, black oxide, zinc plating black/silver/colorful
Quality Features	100% inspection before shipping, 2-year sales guarantee

### Manufacturer Profile

Dongguan Minda Metal Technology Co., Ltd., established in 2015, specializes in precision manufacturing of:

CNC machining parts

MIM parts

Powder metallurgy components

Aluminum and magnesium alloy die casting parts

Our comprehensive services include product mold design, development, and production. Our professional sales team maintains constant communication to understand customer requirements, while our technical staff ensures precise execution. All products undergo rigorous quality control with 100% inspection prior to shipment.

### Packaging & Shipping

### Frequently Asked Questions

#### Q1. What kind of documents do you need for a quotation?

A: We require PDF drawings or 3D files in STEP, IGS or X\_T format.

#### Q2. Can you make the parts according to samples?

A: Yes, we can reverse engineer from physical samples to create production drawings.

#### Q3. What materials do you typically use?

A: Aluminum, Steel, Brass, Stainless Steel, Bronze, Titanium alloy, etc.

**Q4. Can you assemble the products?**

A: Yes, we provide assembly services according to customer specifications.
